Looking for a way to put your faith into action? Join our team going to Honduras **March 4-12, 2017**, and you and other members of your faith community will work together to build a simple, decent home for a family. These homes are earthquake-resistant and designed to improve each family’s health, safety and livelihood.

During this mission trip, you will experience the exhilaration of working with a team of people who feel called to serve, have time to reflect and recharge and enjoy an escape into authentic Honduras. You’ll also have some time to understand the cultural backdrop, sample the local cuisine and visit Copan Ruins, an incredible sight!

Habitat Wake has a special relationship with Habitat Honduras. Since 2012, Habitat Wake has funded 174 houses in Honduras including a 32 home community in El Rosario which has a park named after Habitat Wake.

If you are interested in getting your hands dirty, learning about Honduras as an insider and getting to know the families you are helping, please join us. No experience is required! This build is your next step toward making the world a better place.

*Seeking to put God’s love into action, Habitat for Humanity brings people together to build homes, communities and hope.*
TRIP HIGHLIGHTS

• Help a family improve their health and quality of life
• Learn new skills and work with like-minded individuals
• Explore the local community and enjoy cultural activities

PROGRAM COST

$1,100 US does not includes airfare
This cost includes accommodations, meals, in-country transportation, medical insurance as well as an important donation to Habitat for Humanity to help build safe, decent housing. In addition, participants will pay their own air transportation to San Pedro Sula, Honduras (flight information will be forwarded to all participants.)

ACCOMODATIONS AND MEALS

Our team will stay in a hotel in Santa Rosa de Copan with two to four people per room. Breakfast is served at the hotel, lunch is eaten on the work site, and dinner is taken at a variety of local restaurants.

TASKS ON THE WORK SITE

Mission trip team members may work in all stages of construction, from digging foundations to painting houses. Responsibilities will likely include carrying bricks, mixing cement or adobe, compacting dirt, moving materials and other tasks as assigned by the construction supervisor.

SHARE YOUR STORY AND KEEP HABITAT BUILDING

Tell people about your experience! Create a page on the Honduras kintera website to tell friends, family and coworkers about your Global Village trip. Fundraising your program cost will be easy, and any additional funds you raise will keep Habitat building after your team returns home.
